EXPERIENCE

MoonPay SEP 2025 - PRESENT · LONDON
Senior Software Engineer

- Built and demoed a personal AI agent executing crypto transactions at MoonPay's London AI x Crypto meetup.
- Contributed to **moonpay/skills**, open agent skills for on-ramps, swaps, wallets and payments; repo has **109 stars** and **24 forks**.
- Contributed to product launches across Buy/Sell, MoonPay Balance and Polygon purchase performance, including **8.5x faster Polygon buys**.
- Won popular vote at MoonPay's AI Agentic Engineering Hackathon by pairing product storytelling with working agent automation.

Motorway JUN 2024 - SEP 2025 · LONDON
Senior Software Engineer

- Led core, mission-critical platform services enabling faster, more reliable product delivery.
- Delivered Motorway Pro trade proposition, contributing to **+15% platform volume**.
- Led AuthN/AuthZ decoupling that removed customer pain points and improved top-of-funnel conversion by **7%**.
- Founded an operational-excellence working group that cut annual AWS costs by **15%**.

Deliveroo MAY 2022 - JUN 2024 · LONDON
Software Engineer II, Care Tech

- Led customer-care automation with agents, fine-tuned GenAI models and highly available Go APIs.
- Delivered **2x CSAT** and cut request-handling time to **0.5x**.
- Maintained care microservices for calls, chats, credits and refunds across a three-sided marketplace.
- Ran SEV game days and trained **100+ engineers** on incident response.

Zalando JAN 2021 - MAY 2022 · HELSINKI
Software Engineer, Fulfillment Network

- Owned **1,000+ RPS** warehouse integration gateway; reduced latency by **15%** with API and query optimization.
- Built internal tooling and ran integration workshops with third-party operations teams.

EARLIER

Nordcloud - Cloud Engineer, 2020-2021. Migrated a transport-client PHP monolith to service-based cloud architecture across AWS, Azure and GCP.

CARE - Backend and Cyber-Physical Systems, 2017-2019. Built Industry 4.0 automation, MQTT infrastructure and OTA firmware systems. **P@SHA ICT Award**.

Writing	dev.to/aashirjaved
Product	whatify.ai

CORE STACK

AI
LLM agents, RAG, MLOps, vector search, automation
LANGUAGES
Go, TypeScript, Python, Rust, Java, C++
CLOUD & INFRA
AWS, Terraform, Kubernetes, serverless, gRPC
DATA & SCALE
Kafka, PostgreSQL, DynamoDB, vector DBs
SYSTEMS
Distributed systems, resilience, reliability

SELECTED WORK

alchemy-infra
Infrastructure-as-TypeScript skill for agents. <i>+15.5pp</i> benchmark lift with strict secret hygiene.
moonpay/skills
Contributor to open agent skills for money movement. <i>109 stars, 24 forks</i> .
Whatify
Public-data financial diagnosis tool with <i>300+</i> weekly unique users.

SPEAKING & COMMUNITY

Speaker - MoonPay AI x Crypto Meetup, London
Mentor - ADPList
OSS - AWS Cognito passwordless auth

RECOGNITION

AWS Certified Developer - Associate
EIT Digital Scholarship - dual-degree
NUST High Achiever - Top 3 of degree

EDUCATION

B.E. Computer Engineering
National University of Sciences & Technology (NUST) · 2014-2018
